EDUCATION

University of Toronto, SCS | Toronto, ON

Full-Stack Web Development Certificate Program

December 2022 - June 2023

A 24-Week bootcamp in collaboration with edX. This full stack flex course teaches fundamental skills needed to become a full stack web developer. Includes numerous collaborative projects that mimic real world problems, applying Agile Development and Computer Science.

Ryerson University, TRSM | Toronto, ON

Bachelor of Commerce, Business Technology Management

September 2017 - June 2021

A comprehensive four-year program in business management and ICT. Gained practical expertise in analyzing business needs, process design, project management, consulting, customer-supplier relations, and marketing.

Relevant courses: Computer-Enabled Problem Solving, Business Intelligence, Systems Analysis and Design, Big Data.

- TRSM Dean's list for the academic year of 2020/2021.
- Acquired a Minor in Economics.

PROJECTS

Happily Ever Prints

June 2023

Github Repo: <https://github.com/weddingprintproj3/HappilyEverPrints>

Developed a scalable, user-focused MERN app with a team. Fully functional site dedicated to fulfilling wedding-related print needs. The goal was to empower users by providing them with intuitive tools to design their own wedding cards. The site is deployed in Heroku utilizing MongoDB & Stripe payment.

Heart Disease Classification using Neural Networks

January 2021 - April 2021

[ITM703 - Heart Disease Classification Using Deep Neural Networks.pdf](#)

Created an AI algorithm to successfully predict if a patient is diagnosed with heart disease or not based on attributes such as blood pressure, cholesterol, age and more. Worked with three other members through Google Colab for easy access and collaboration. Used Excel, Python libraries such as numpy, pandas.

Apex Tools Sales & Rentals

September 2020 - April 2021

[ITM90AB ATSR Project Solution.pdf](#)

This capstone analyzes real-world business challenges, crafting an innovative enterprise solution for ATSR. A six-member team redesigned an efficient IS solution, catering to prompt rental service for major construction companies.

WORK EXPERIENCE

PazCam Studios | [@pazcamdigitalstudio](#)

Assistant part-time photographer | Freelance

June 2018 - Current

- Supported in filming weddings, business meetings and other event organizations.
- Captured highlights and edited photos through Adobe/Sony video software.
- Operated camera equipment, full frame and cropped sensors (APS-C and Micro Four Thirds).
- Developed partnerships with small companies and business facilitators.

Buchanan Technologies | Etobicoke, ON

Contracted IT technician

August 2023 - September 2023

- Efficiently managed Humber College workstation setups, covering hardware validation, secure connections, network access, peripheral checks, and local printer connections.
- Elevated system performance through adept computer re-imaging, reinforced by meticulous administrative enhancements for seamless new user integration.

Bulk Barn | Mississauga, ON

Sales Associate

May 2015 - August 2016

- Worked as a cashier clerk, handling transactions and promoting deals in the store.
- Organized product displays and managed inventory.
- Developed conflict resolution skills through assisting customers in their needs.
- Took part in training employees by assigning test modules for work safety protocols.
